

Alaska Reservation Not Showing Up? Troubleshooting Missing Bookings

 **Booking Recovery Line: +1 (844) 212-9096** (Find Your Reservation Fast!)

Why Reservations Go "Missing"

 **Common Causes:**

Wrong confirmation number:

- Typed incorrectly
- Missing a digit
- Confusing similar characters (O vs 0, I vs 1)

Wrong last name:

- Spelling variation
- Hyphenated name issue
- Maiden vs married name

System lag:

- Just booked (not in system yet - wait 5 min)
- Recent change still processing

Third-party booking:

- Booked through Expedia/Kayak/etc
- Alaska doesn't have it yet

Cancelled/refunded:

- Already cancelled
- Payment declined

Wrong airline:

- Booked different airline by mistake
- Codeshare confusion

Step-by-Step Troubleshooting

STEP 1: Verify Confirmation Number

Check your email:

- Subject line: "Your Alaska Confirmation"
- From: Alaska Air Lines
- Confirmation format: 6 characters (ABC123)
- Ticket number: 13 digits starting with 006

Common mistakes:

- O (letter) vs 0 (zero)
- I (letter) vs 1 (number)
- Q vs O
- 5 vs S

Try variations if not working

 **Still not working?** Call **+1 (844) 212-9096** with email open

STEP 2: Check Name Spelling

Name must match exactly as booked:

- Try without middle name
- Try with middle initial
- Try maiden name (if recently married)
- Try nickname vs legal name

Example variations:

- "Robert Smith" vs "Bob Smith"
- "Mary Johnson" vs "Mary Smith-Johnson"
- "Jennifer" vs "Jeniffer" (typo)

STEP 3: Search by Ticket Number Instead

If confirmation not working:

Use 13-digit ticket number:

- Found in confirmation email
- Starts with 006

- More reliable than confirmation code

Where to enter:

- Alaska.com → My Trips → "Search by ticket number"
- Or call **+1 (844) 212-9096** with ticket number

STEP 4: Check if Payment Processed

Verify charge on credit card:

- Check bank/card statement
- Alaska charge should appear within 24 hours
- If no charge = booking may have failed

If payment declined:

- Booking automatically cancelled
- Won't show up in system
- Need to rebook

 **Payment issue?** Call **+1 (844) 212-9096** to verify booking status

STEP 5: Wait 5-15 Minutes (If Just Booked)

System processing time:

- Online booking: 2-5 minutes to appear
- Phone booking: 5-15 minutes
- Third-party: Up to 24 hours

What to do:

- Refresh browser
- Check email for confirmation
- Wait a bit, try again

If still nothing after 30 min: Call **+1 (844) 212-9096**

STEP 6: Check Third-Party Site

If booked through Expedia, Kayak, etc.:

Their confirmation ≠ Alaska confirmation:

- They give YOU a confirmation number
- That's their internal number
- Alaska has separate confirmation

How to find Alaska confirmation:

- Check their confirmation email
- Look for "airline confirmation" or "Alaska confirmation"
- Usually 6-character code separate from their booking number

Or: Call **+1 (844) 212-9096** with third-party confirmation - Alaska can search
