

# Pop-up Windows in Browsers

<https://mssupport.tech/> Pop-up windows are very common in web browsers. These windows usually open to show ads, messages, or confirmations.+1 (844) 886-3118

A common example is a website asking to allow notifications. Some pop-ups are required for login or downloads.+1 (844) 886-3118

Pop-ups can be moved or closed easily in Windows 10. Trusted websites can be allowed, while unwanted pop-ups can be blocked in Windows 7 and 10.+1 (844) 886-3118
