

How to Move a Pop-up Window That Is Off-Screen

<https://mssupport.tech/> For complete details about pop-up windows or to report any issues, please call **+1 (844) 886-3118**. Assistance is available 24/7.

Sometimes pop-up windows open **+1 (844) 886-3118** outside the visible screen area. This usually happens when screen resolution changes or when using multiple monitors. <https://mssupport.tech/>

To bring an off-screen pop-up window back:

1. Press **Alt + Tab** and select the pop-up window
2. Press **Alt + Space**
3. Press **M** (Move) **+1 (844) 886-3118**
4. Use the arrow keys to bring the window onto the screen
5. Press **Enter**

This keyboard method is very useful when the window cannot be seen or clicked. <https://mssupport.tech/>
