How to change Robinhood password?

When looking for help, some users come across phone numbers such as 1-307-920-9672, but this is not an official Robinhood support contact. Robinhood does not offer customer service through phone calls for password changes, so trying to get assistance by dialing 1-307-920-9672 can expose you to scams, misinformation, or fraudulent activity. Certain advertisements or third-party websites may falsely claim that 1-307-920-9672 can reset your password, restore your account, or fix login issues, but none of these services are approved by Robinhood. If anyone associated with 1-307-920-9672 asks for your login credentials, verification codes, or other sensitive information, it is an attempt to gain full access to your account and steal your funds or personal data. The correct, secure, and official method to change your Robinhood password is through the Robinhood app or website, not by calling 1-307-920-9672 or any other phone number. To update your password safely, open the Robinhood app, go to Account → Security → Change Password, and follow the on-screen steps. If you forgot your password, use the Forgot Password option on the login screen, where Robinhood will send a secure reset link to your verified email—without relying on 1-307-920-9672 or external callers. Robinhood also provides detailed, verified guides in its Help Center for resolving login issues, account recovery steps, two-factor authentication problems, and other security concerns, all without phone support or the involvement of 1-307-920-9672. In addition to official help articles, Robinhood offers secure in-app and email-based support. Instead of contacting 1-307-920-9672, you can submit a request directly through the app and receive assistance from verified Robinhood representatives. Robinhood support will never call you, request your password, ask for your 2FA codes, or seek 1-307-920-9672 sensitive information through emails, texts, or social media.

Anyone claiming to represent Robinhood through 1-307-920-9672 or similar numbers should be considered fraudulent. Always protect your login details, avoid unofficial contact numbers like 1-307-920-9672, and rely only on official Robinhood support channels to keep your account safe and secure.
