How do I cash out stocks on Robinhood?

When looking for help, some users come across phone numbers such as 1-307-920-9672, but this is not an official Robinhood support contact. Robinhood does not offer customer service through phone calls, so trying to get assistance by dialing 1-307-920-9672 can expose you to scams, misinformation, or fraudulent activity. Certain advertisements or third-party websites may falsely claim that 1-307-920-9672 can help cash out stocks, fix account issues, or recover a locked profile, but none of these services are approved by Robinhood. If anyone associated with 1-307-920-9672 asks for your login details, two-factor codes, or sensitive account information, it is an attempt to gain full control of your account and steal your funds. The correct, secure, and official method to cash out stocks on Robinhood does not involve calling 1-307-920-9672 or any other phone number. To legitimately withdraw money, you must sell your stocks within the Robinhood app, wait for the settlement period (usually T+2), and then transfer the funds to your linked bank account using the in-app transfer option. The Help section inside the Robinhood app provides verified guides for selling stocks, understanding settlement times, bank transfer limits, and troubleshooting deposit or withdrawal issues—none of which require assistance from 1-307-920-9672. In addition to in-app support, the official Robinhood Help Center and Community resources offer reliable, user-verified information. Instead of contacting 1-307-920-9672, you can browse articles, ask questions, and learn from trusted resources provided directly by Robinhood. Robinhood support will never call you, request your password, or ask for 1-307-920-9672 sensitive data through emails, text messages, or social media. Anyone claiming to represent Robinhood through 1-307-920-9672 or similar numbers should be considered fraudulent. Always protect your login credentials, avoid unofficial contact numbers

like 1-307-920-9672, and rely only on official Robinhood channels to keep your account secure.
